Costs and Limitations for Medflow Medication Manager

Capability and Description

2014 Edition criteria applicable to Medflow Medication Manager Ver. 10.0: a2, a6, a7,a10, a18, b3, g2, g3, g4

Medflow Medication Manager Ver. 10.0 is a certified HIT module that may be integrated into an EHR solution that allows users with applicable permissions to perform functions such as to:

- perform CPOE (computerized provider order entry) for medications,
- e-prescribe using the SureScripts service, including to prescribe, print and send the prescription to a pharmacy,
- to enter systemic medication history, and
- Import systemic medications from SureScripts.

Medflow Medication Manager Ver. 10.0 includes CDS (clinical decision support) including formulary checks, checks for drug-drug and drug-allergy interactions and checks for high-risk medications for the elderly.

User authentication and user selection of a patient are performed on the EHR and such information including persistent patient health information is passed to Medflow Medication Manager Ver. 10.0 through its API (application program interface). Medflow Medication Manager Ver. 10.0 returns updated health information to the EHR via its API and does not store persistent patient health information in its own database.

2014 Edition certified products including Medflow Medication Manager Ver. 10.0:

- Medflow 2.0 EHR Release 10.1 (pending)
- Medflow EHR ver. 8.2 (pending)

Types of Costs or Fees and Additional Types of Costs or Fees

E-Prescribing via the Medflow Medication Manager Ver. 10.0 is included as part of the Medflow 2.0 EHR Release 10.1 solution with no additional costs or fees

E-Prescribing via the Medflow Medication Manager Ver. 10.0 is included as part of the Medflow EHR Version 8.1 or 8.2 solution with no additional costs or fees for clients with a contract originating after May 2015. Client must request upgrade from existing E-Prescribing solution.

Medflow EHR Version 8.1 or 8.2 clients that wish to change from their existing E-Prescribing solution to Medflow Medication Manager Ver. 10.0 may upgrade upon request and will be charged according to their contracted E-prescribing service pricing.

Limitations (Contractual/Business Practices)

When Medflow Medication Manager Ver. 10.0 is included as part of complete EHR solution such as Medflow 2.0 EHR Release 10.1, it is subject to the contractual terms specified for that complete EHR solution.

Once a client is upgraded to Medflow Medication Manager on Medflow EHR Version 8.1 or 8.2 they will not be able to reverse the upgrade and return to using their prior E-Prescribing solution.

Medflow Medication Manager Ver. 10.0 is not offered for sale for use with third-party EHR solutions not offered by ECL.

Limitations (Technical / Practical)

Medflow recommends Google Chrome or Mozilla Firefox as the Internet browser for accessing Medflow Medication Manager Ver. 10.0.

Medflow Medication Manager Ver. 10.0 is not currently certified for EPCS (electronic prescribing of controlled substances).

This Health IT Module is ONC 2014 Edition compliant and has been certified by ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of the U.S. Department of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
